

TAG Trigger Actuator

Brand-new Trigger Actuator

Easy to use and kindly curved design.

We introduce new trigger actuator for G18 valve series. Thanks of a kindly curved design, it's easy to use and to hold tightly for people who is a poor grip or a small hands. And it expands product applications for femininity design products and so on, improving presence in stores with appreciated design.

Good basic function

Separated actuator component moves vertically and sprays.
And it prevents spraying with virgin seal during transportation.

Number of components : 4 components

Attractive color variation.

By separating components color, it realizes colorful package design.
